L1 PRO16
PORTABLE LINE ARRAY SYSTEM

A balance of power and portability

You found the sweet spot.

The L1 Pro16 is a streamlined system with high output and extended low frequency. With a 16-driver articulated J-shape line array, the L1 Pro16 offers 180 degrees of horizontal sound coverage and is a perfect fit for DJs, singer-songwriters, and small ensembles performing in small-to-medium sized clubs, bars, and other venues.

Balance power and portability with an L1 optimized for on-the-go simplicity and expanded bandwidth.

Versatile coverage — J-shaped line array featuring 16 articulated 2" neodymium drivers; 180-degree horizontal coverage, tight vertical control on top, wide dispersion on the bottom to cover audiences whether set up on the floor or an elevated stage, even off to the extreme sides in medium to large venues

Integrated 10" × 18" subwoofer featuring a high-excursion neodymium RaceTrack driver; performance that rivals a conventional 15" woofer with a smaller footprint

Built-in mixer

Connect various audio sources with two combo XLR-1/4" phantom-powered inputs, 1/4" and 1/8" (3.5 mm) aux input, plus Bluetooth® streaming — and access channel volume, tone, and reverb via illuminated controls, with ToneMatch presets and system EQ.

ToneMatch port

Add in even more instruments and other audio sources via dedicated ToneMatch port; one cable provides both power and digital audio between the system and a Bose T4S or T8S mixer (optional).

L1 Mix
for Apple
and Android

L1 Mix app

Take wireless control with the L1 Mix app on your phone or tablet to adjust settings instantly, roam the room and fine-tune, and access the ToneMatch library of custom EQ presets.

Dimensions: (H × W × D): 201.20 × 35.50 × 45.60 cm (79.21 × 13.98 × 17.95 in)
