SPEAKER MOUNTING BRACKET

SP-410

■DESCRIPTION

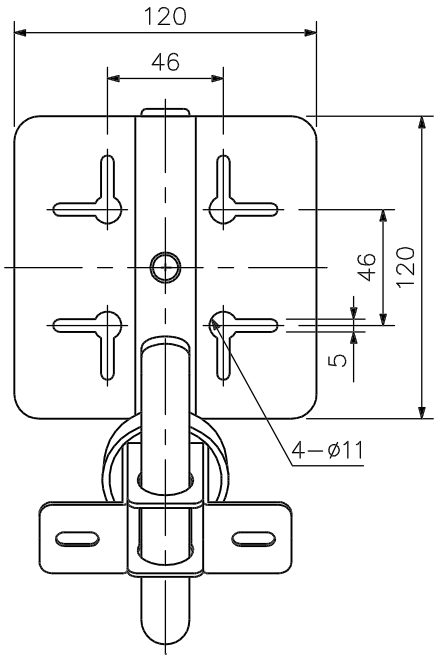

TOA's SP-410 bracket is used to mount a box speaker to a wall or surface. It can be installed in combination with a 2-unit electrical box and can easily set or change the speaker orientation.

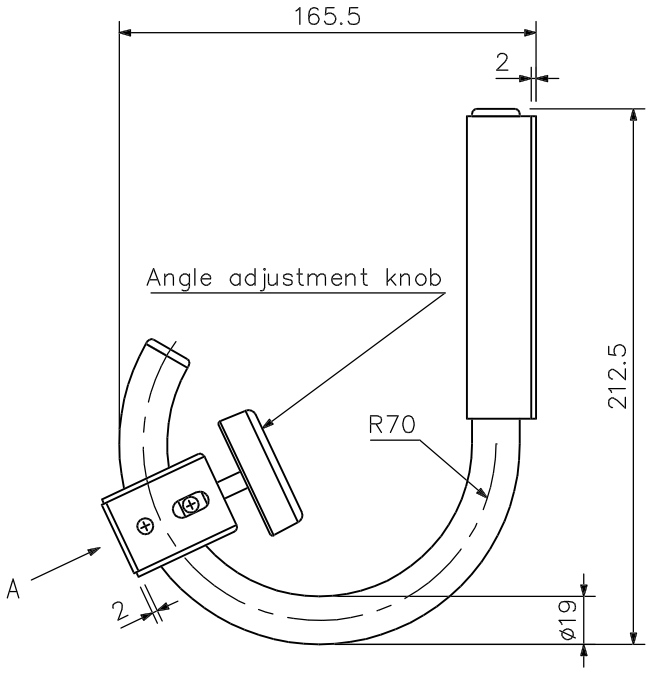

■SPECIFICATIONS

Maximum Speaker Load	Under 4 kg
Finish	Base, shaft: Stainless steel (SUS304) Bracket: Nickel-plated rolled steel plate
Accessory	Speaker mounting bracket……2, Electric work box mounting screw……4, Wall mounting screw……4, Bracket fixing screw……2

Note:
(1) Be sure to use the SP-410 in combination with TOA's speakers.
(2) Install the speaker indoors or under the eaves, where the speaker is not directly exposed to the rain, strong wind or vibration.

■APPEARANCE

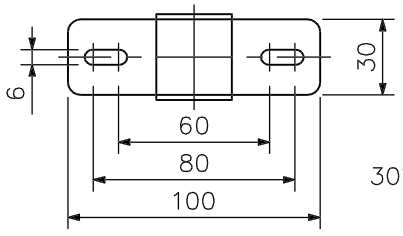

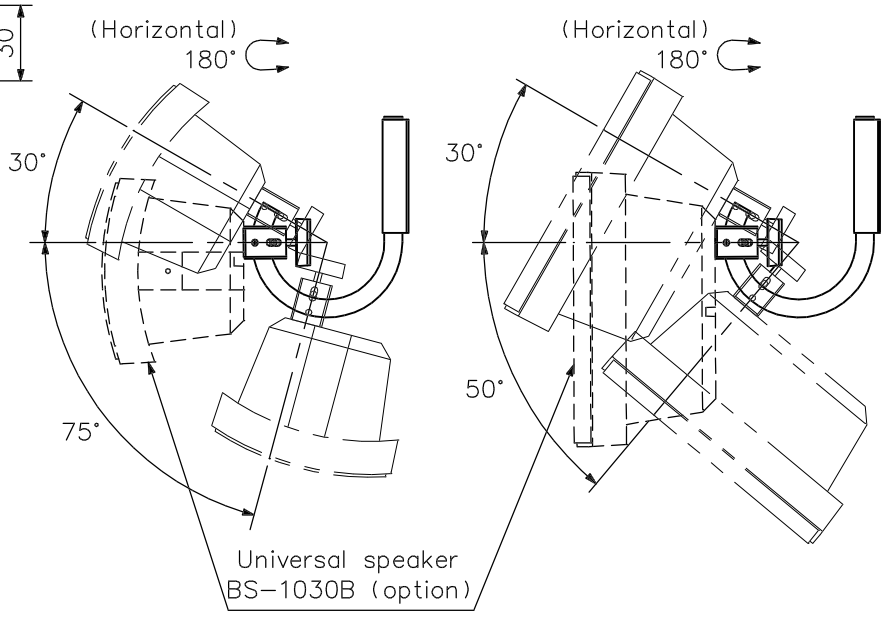

Figure as viewed from point A

Mounting example

To prevent the loss of splash-proof capabilities, do not install the speaker face-up when installing the BS-1030B, BS-1030W speaker outdoors.
